APPLICANT DETAILS

* indicates a required field

Applicant

Please ensure you have read the [Guidelines](#) prior to starting your application.

Applicant *

Title

First Name

Last Name

Email *

Must be an email address

Mobile *

Affiliation *

- ☐ The Prince Charles Hospital (TPCH)
☐ Caboolture Hospital

**Professional association
with TPCH or Caboolture

Gender *

- ☐ Female
☐ Male
☐ Non-binary
☐ Other:

- ☐ Prefer not to say

PhD Details

Please indicate whether the PhD will be undertaken on a full- or part-time basis *

☐ Full time

☐ Part time

If part-time, at what FTE?

Please note: if completing a part-time PhD, evidence must be provided that the student meets the requirements of their nominated University

Have you commenced your PhD? *

☐ Yes

☐ No

☐ Upgrading from MPhil

PhD start date or intended start date *

RESEARCH PROJECT

* indicates a required field

Summary Information

Title of project: *

Please describe the type of research to be undertaken *

Word count:

Must be no more than 10 words.

E.g. animal research, human research, data linkage etc.

What is the primary priority area that your research addresses? Please select all that apply. *

- ☐ Heart
- ☐ Lung
- ☐ Mental health
- ☐ Paediatrics
- ☐ Ageing
- ☐ Aboriginal and/or Torres Strait Islander Health
- ☐ Multicultural populations
- ☐ Other:

Applications addressing one or more of the priority areas will be highly regarded. However, those not directly addressing these areas are still eligible to apply.

Outline how your research aligns with the priority area(s) selected above. How does it address the Foundation's mission to 'help people live healthier for longer'?

*

Word count:

FY27 PhD Scholarship Application

Must be no more than 100 words.

Relevance of research to TPOCH or Caboolture Hospital *

Word count:

Must be no more than 250 words.

Please explain the link between your research and clinical benefit in a specialist area relevant to the work of TPOCH or Caboolture Hospital

Briefly describe the research proposal in lay terms *

Word count:

Must be no more than 200 words.

Does this application relate to Aboriginal and/or Torres Strait Islander health research? *

- ☐ Yes
☐ No

For the project to qualify as Aboriginal and/or Torres Strait Islander health research, it must be a specific and substantial focus of the proposed study. It is an expectation that researchers will have consulted or be directly collaborating with their Hospital Indigenous Health Service and/or specialists in this field prior to application. If you answer 'yes', you will be provided with space to address the NHMRC Indigenous Research Excellence Criteria (IREC) below.

Does your research plan include a co-design component? *

- ☐ Yes
☐ No

Co-design is a specific research conceptualisation technique, it does not refer to consultation. Co-design is a process whereby relevant stakeholder views contribute not only to the thinking but also the making of decisions. It refers to a participatory approach to designing solutions, in which community members are treated as equal collaborators in the design process. If you answer 'yes', you will be provided with space to describe your co-design approach below.

Does this application relate to Aboriginal and/or Torres Strait Islander health research?

Qualifying applications must address the NHMRC Indigenous Research Excellence Criteria as follows:

- **Community engagement** - the proposal demonstrates how the research and potential outcomes are a priority for Aboriginal and/or Torres Strait Islander communities with relevant community engagement by individuals, communities and/or organisations in conceptualisation, development and approval, data collection and management, analysis, report writing and dissemination of results.
- **Benefit** - the potential health benefit of the project is demonstrated by addressing an important public health issue for Aboriginal and Torres Strait Islander people. This benefit can have a single focus or affect several areas, such as knowledge, finance and policy or quality of life. The benefit may be direct and immediate, or it can be indirect, gradual and considered.

FY27 PhD Scholarship Application

Form Preview

- **Sustainability and transferability** - the proposal demonstrates how the results of the project have the potential to lead to achievable and effective contributions to health gain for Aboriginal and/or Torres Strait Islander people, beyond the life of the project. This may be through sustainability in the project setting and/or transferability to other settings such as evidence-based practice and/or policy. In considering this issue, the proposal should address the relationship between costs and benefits.
- **Building capability** - the proposal demonstrates how Aboriginal and/or Torres Strait Islander people, communities and researchers will develop relevant capabilities through partnerships and participation in the project.

Please outline how the research project addresses the NHMRC Indigenous Research Excellence Criteria

Word count:
Must be no more than 500 words

Co-Design

Describe your approach to co-design, and how this will benefit the overall project and outcomes

Word count:
Must be no more than 250 words.

Project Plan

What are the hypothesis, aims, objectives, potential outcomes and significance of the project? *

Word count:
Must be no more than 400 words.

Background, research plan and feasibility of the project *

Please give brief details about the highlights of your academic and research background. *

Word count:

Must be no more than 400 words.

For example prizes, medals, awards, postgraduate research training, professional research experience, broader community engagement

PRIMARY ADVISOR STATEMENT

* indicates a required field

Please attach a statement of support from your Primary Advisor confirming their support for both your PhD candidature and this scholarship application. PDF format is preferred. *

Attach a file:

This letter should include a statement from the Primary Advisor to confirm that they have reviewed the candidate and are satisfied that the candidate meets the entry requirements for admission to the applying institution.

APPLICATION CONDITIONS AND SIGNATURES

* indicates a required field

Conditions

The following conditions apply to this application:

- 1.The applicant authorises The Prince Charles Hospital Foundation to make any enquiries it considers necessary in relation to the proposed research project.
- 2.The applicant agrees to abide by The Prince Charles Hospital Foundation's policies.
- 3.The applicant declares that any use of generative AI has complied with the grant guidelines and that all information provided in this application is accurate and complete.
